

Smart Camera- Bullet With Box PC

ON EDGE VIDEO PROCESSING

Video Analytics raises alert and automatically pop up video feed at Command and Control Center hence reducing Network bandwidth usage

The Smart Camera Bullet offers comprehensive protection against all environmental conditions. Equipped with proprietary IoT hardware and software solutions, it enables seamless remote monitoring and control.

The enclosure includes a cable-managed bracket and sunshield, constructed from durable Mild Steel/Polycarbonate to ensure strength and longevity. Additionally, neoprene-rubber gaskets and sealing rings provide superior weatherproofing.

The Smart Camera Bullet also features on-edge real-time video storage and analytics capabilities, making it an advanced solution for various security needs. These cameras are designed for quick deployment and low maintenance, ensuring ease of use and reliability in harsh environments.

REMOTE MONITOR &
CONTROL

HIGHLY RELIABLE

CUSTOMISABLE

SUITABLE FOR MULTIPLE
IP BULLET CAMERA

CAMERA

2 MP IP CCTV Camera
ONVIF, RTSP capable
Varifocal Lens
Make- Axis M1135 MK IIT

Edge Gateway

Intel i5/i7/i9 2.5G 6C
8G DDR5
1TB SSD Storage
Make -IEI DRPC-W-TGL-U- I5C-R10

IoT & Networking

4G Connectivity
Ethernet port
SFP Port
Automatic temperature control
Remote Monitoring and Management
Device failure alert

Video Management Software (VMS)

On-demand storage and
playback
Easy Integration with ICC
software

PoE Switch

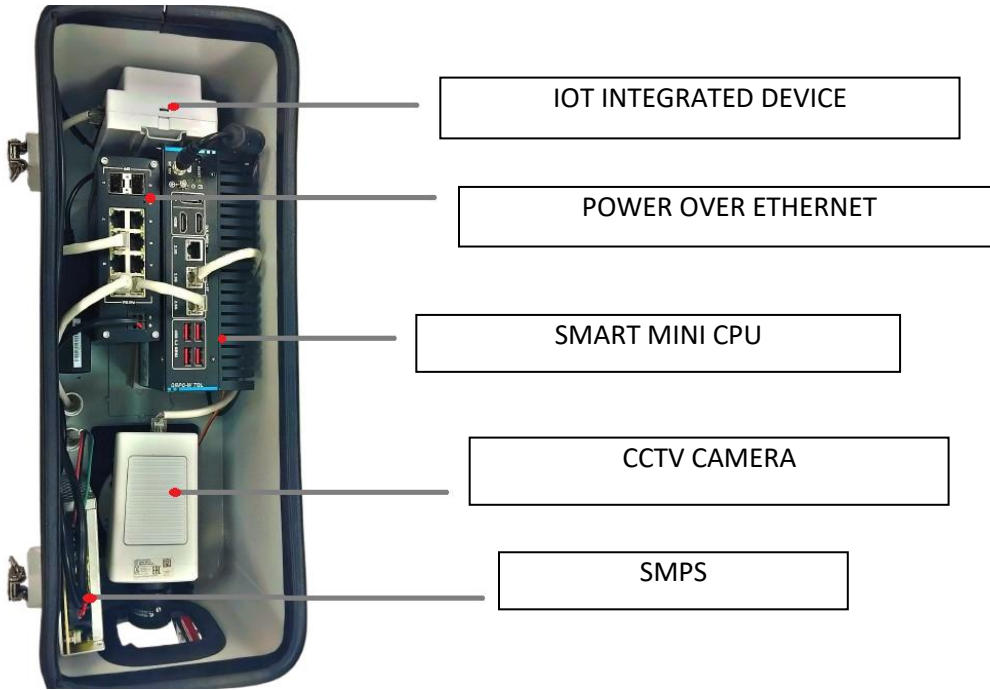

8 Port Managed
10/100/1000 Mbps
Bandwidth 20 Gpbs
Make Teltonika TSW 202

Video Analytics Software (VA)

Fire Detection
Accident Detection
Fight Detection
Crowd Monitoring
